

**Mr. Watanabe**  
**Economics**

## **Pass the Bill (300 points)**

This assignment is worth a total of **300 Points per semester**. You will receive donations (**3 Points**) every day as an economist (student) if you are in class **ON TIME**, have proper materials to "work" (**COVERED** textbook, paper, writing instrument), do not disrupt the work environment in any way (talking, getting out of your seat, etc.), and use the **ENTIRE** time in class to "work." An economist (student) is always prepared!!

However, an economist (student) who is out of line in any way will lose their bills for the session, which will include:

- Absences – Makeup Allowed with Assignment (Excused/School Business Only)
- Tardiness
- Using the restroom
- Disrupting the work environment
- Talking during work time
- Leaving your work area (seat)
- Failure to stay on task
- Not following classroom rules

There are approximately 100 days of "work" this semester and, therefore, a possibility of 100 days of gaining donations. These points are easy to earn, however, they are even easier to lose! Please do not risk losing these points, be prepared, be well behaved, and you will be okay! It is possible to lose more than two points in a day for excessive disruption.

Therefore:

Up to 10 days of loss or rights = "A" (90%) Economics Success

Up to 20 days of loss or rights = "B" (80%) No Gain

Up to 30 days of loss or rights = "C" (70%) Recession

Up to 40 days of loss or rights = "D" (60%) Depression Headed Your Way
