

# Scientific Revolution *Law*

## Requirements

### Due on Your Finals Day

Create a visual weighing the pros and cons of ONE of the topics listed in the right column. Your visual can be a poster board, a video, or a power point (with notes).

Since the extra credit project is due on the day of finals, there will be no presentations for the project.

A typed bibliography must be included with the project. Also, include a paragraph evaluating your partner if you have one.

You may work with ONE other person on this extra credit project.

Be Creative!!

Maximum 40 extra credit points.

### Topics

Cloing

Abortion

Animal/Human Testing

The Green Revolution

Outer Space Treatments

Genetic Engineering

Genetically Modified Crops

Nuclear Energy

Plastic Surgery

Stem Cell Research
